1. The USSR has decided to administer a "coup de grace" to the Ukrainians, eliminating once and for all their persistent opposition which has been maintained through US and British aid.
 2. Soviet action against the Ukrainians will take two forms: (a) direct punitive action, and (b) infiltration into the Ukrainian ranks.
 3. Punitive operations have already been initiated, and are responsible for the recent flight of a Ukrainian band into the US Zone in Germany.
 4. Soviet infiltration into the Ukrainian ranks has succeeded to the extent that the Ukrainian commander in chief has evidently sold out to the USSR. He has issued orders to his Ukrainian nationals in the US Zone, directing liquidation of anti-Soviet elements. He has also sent a similar directive to Ukrainian headquarters in Detroit, ordering the elimination of certain persons in the US and the inauguration of "games called Cadix."
- comment: "games called Cadix" are evidently strikes and revolutionary activities.
